DETAILED ACTION

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claim Rejections - 35 USC § 103

Claims 1-12 are rejected under 35 U.S.C. 103(a) as being unpatentable over Bishop of record for reasons of record.

The Bishop patent includes an oxidizing agent to remove metal from the surface as stated in the remarks. The presently claimed invention removes the oxidizing agent and attempts to close the language to other materials. The Bishop patent uses persulfates as oxidizing agents (See col. 3, lines 50-55).

To remove the oxidizing agents and use it separately (as indeed the present invention does) would have been an obvious modification given the teaching of Bishop. Furthermore, it has been well settled that such removal of an element with the removal of its function is an obvious modification well within the skill of the ordinary artisan.

Accordingly, the claims stand rejected.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
